

# ZEBRADOG

DYNAMIC ENVIRONMENT DESIGN

## Interactive Multi-Media Designer:

<http://zebradog-interactive.com/>

ZEBRADOG is looking for a passionate individual to be responsible for designing unique and inspiring interfaces for a variety of digital platforms: web, mobile, kiosk, digital-signage, and custom installations. Your primary responsibilities will be: Concepting and presenting digitally-enhanced physical installations with the entire ZEBRADOG team, designing interactive media for these projects, and finally working closely with ZD's digital development team to bring these ideas into reality. Outstanding design skills **are a must**. A deep understanding interface usability issues is a plus. The ideal candidate will be pro-active and work well in a flexible and fast-paced work environment.

### Responsibilities:

- Design top-notch multimedia experiences
- Concept digital interfaces for a variety of platforms
- Evaluate and visually-transform client content
- Assist in implementation of digital interface designs

### Core Skills:

- Proficiency with digital design software (Adobe Creative Suite) AND / OR motion video software (ex: After Effects)

### Bonus skills:

- Non-linear video production (Final Cut, Adobe Premiere, etc.)
- 3D Design (Maya, Sketchup, Lightwave, etc.)
- Programming knowledge (Processing, PHP, C++, etc.)
- Web design/Production (HTML/CSS/JS)
- Flash
- Quartz Composer/Touch Designer/vvvv/.

Please send samples (digital portfolio and/or motion reels) and a compelling personality paragraph to:
